

The background features a stylized illustration of a healthy lifestyle. It includes various fruits and vegetables: a green pea pod with two brown peas, a green apple with two dark green leaves, a brown pomegranate, and a green leafy vegetable. The background is composed of soft, rounded shapes in shades of green and beige. The text is centered in the middle of the image.

ABOUT THE PROJECT

Food and Grocery Delivery Service for People with
Allergies and Dietary Needs

SafePlate

This app is designed to provide a food and grocery delivery service for people with allergies or dietary needs. The app's target audience is individuals, struggling to find the right food at their local grocery stores due to their allergies/food intolerances. The app's purpose is to make it easier for these individuals to find and purchase specialized food from the comfort of their own homes.

OUR GOALS

COMMUNITY

Build a supportive user community

SERVICE

Create a user-friendly food delivery service for people with allergies

OPTIONS

Offer diverse specialized food options

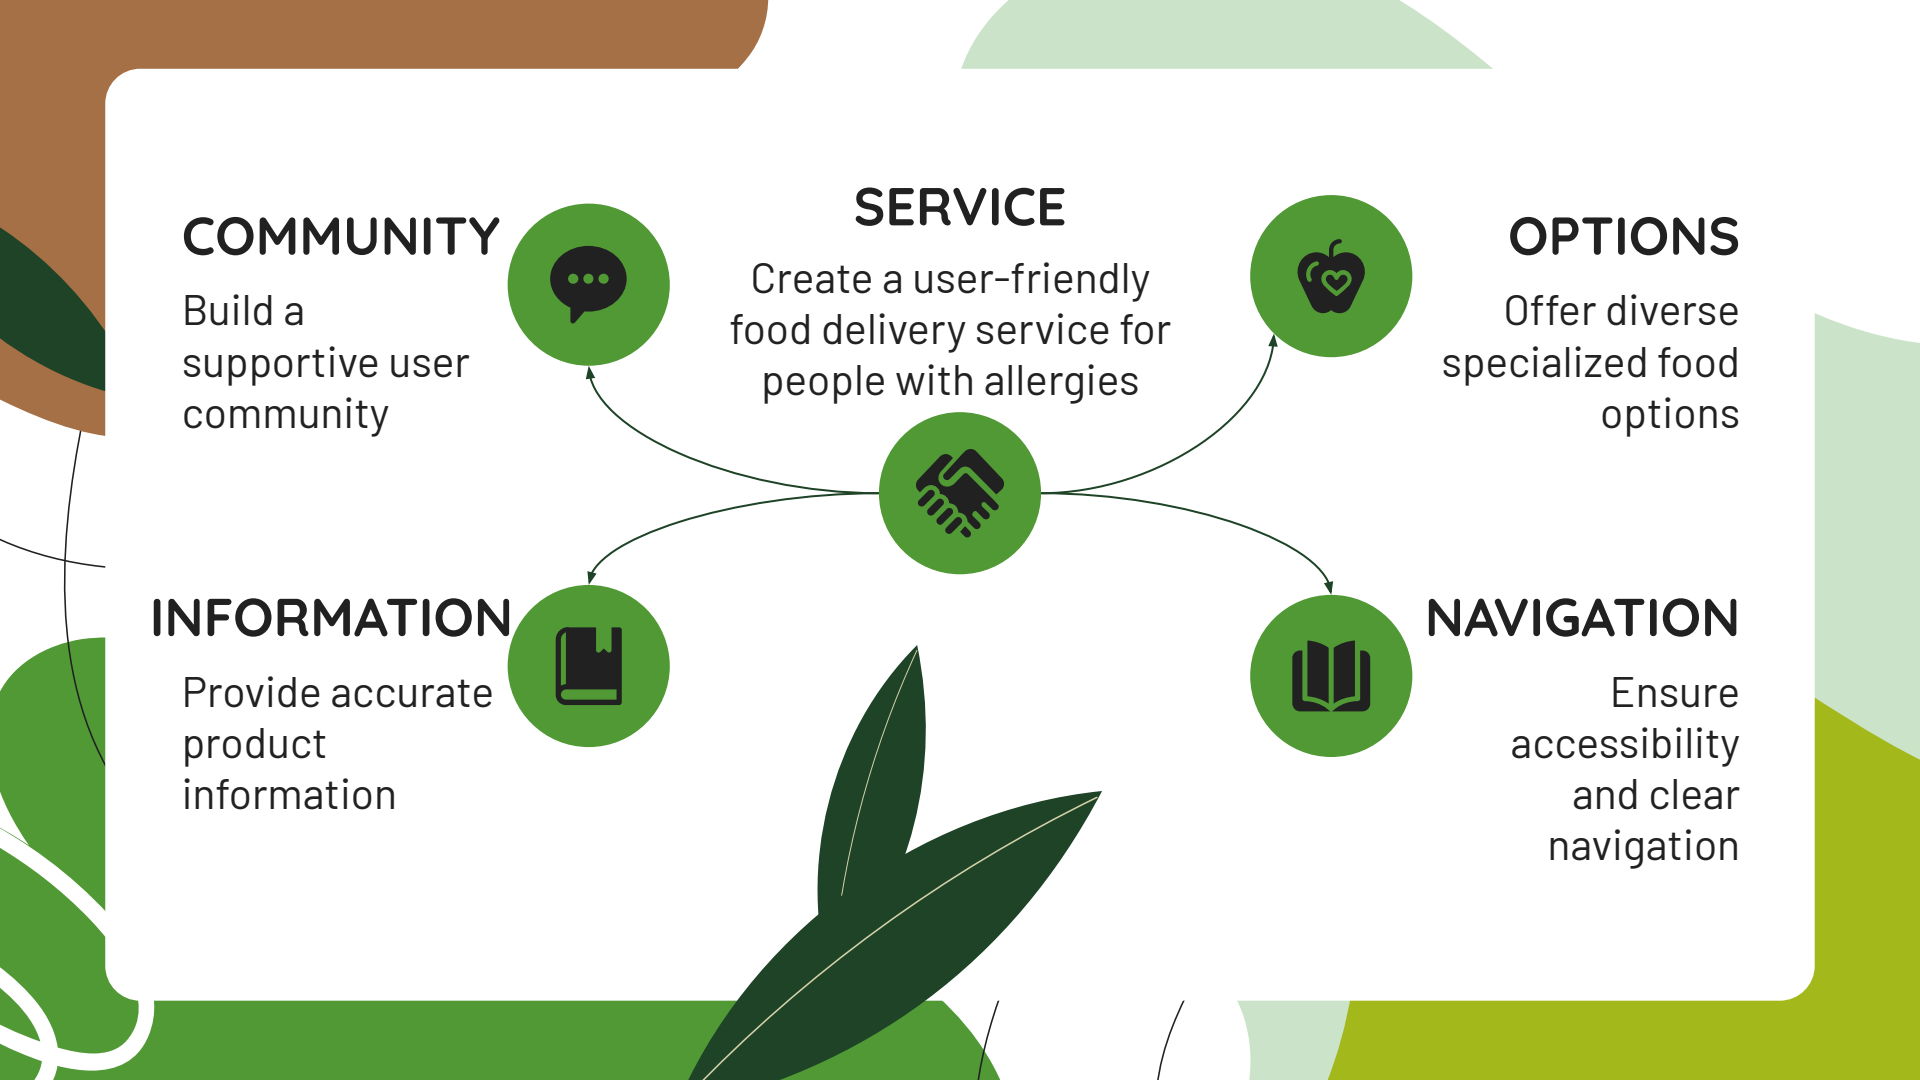

INFORMATION

Provide accurate product information

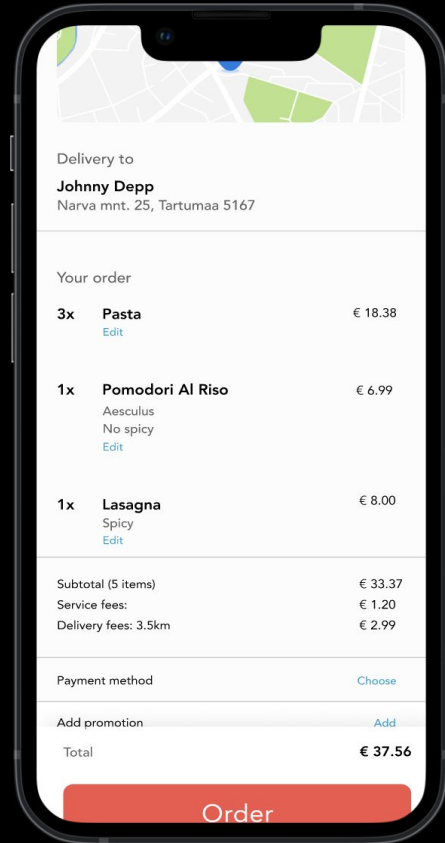

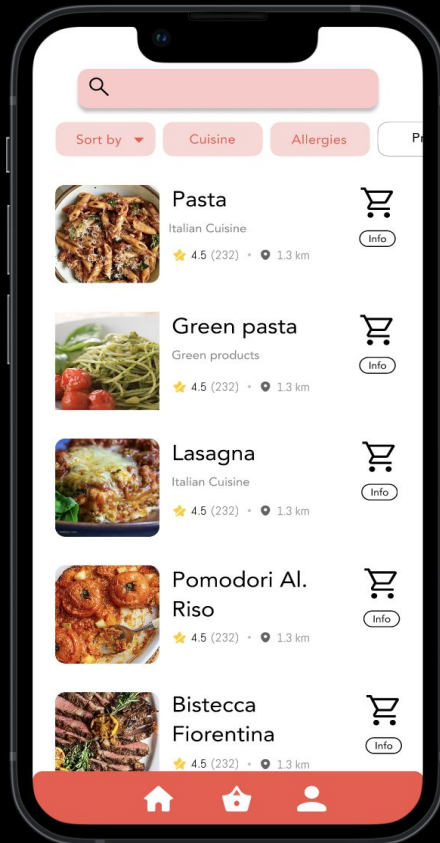

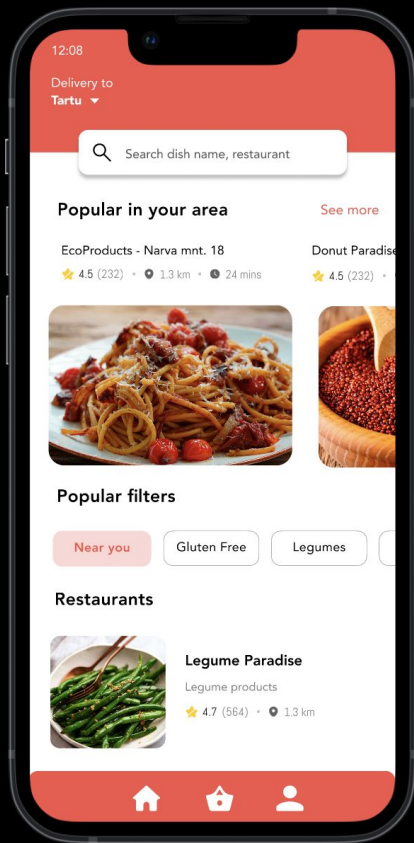

NAVIGATION

Ensure accessibility and clear navigation
